

Artist postcards by the THE BIG DREAM

FILL THE WORLD WITH COLORS AND POSITIVE MESSAGES

With Marina Argenti and Miria Mesiano

You will be thrilled opening your mailbox, finding an envelope for you containing emotions expressed in colors and words like sweet caresses to your soul.

If you are reading this page it is because you have received an "Artist Postcard". I hope you enjoyed receiving a gift.

The "artist postcards" project has no commercial purpose.

The intent is to spread the colors that each of us is able to donate by bringing positive messages, the dream is that our postcards reach all over the world. We would like to involve you in this creative project that inspired us with joy and positivity, born from the desire to spread our colors, designs, signs and words so that they reach the hearts of many people, a "viral happiness" with simple gestures that nourish the soul. We ask you to not interrupt this journey and to become part of this great dream, anyone can participate, no artistic knowledge is required.

The project involves the creation of at least two artist postcards, which you will create with imagination and creativity, all techniques are fine: colors, collages, scribbles, poems; have fun, create many.

We invite you to visit the facebook group "**artist postcards by the Big Dream**", by subscribing you can see our videos that will guide you to the creation of postcards.
